

TAWU/NAWASA Workers accept 16 ½ % Wage Increase.

Workers at the National Water & Sewerage Authority under the Bargaining Unit of the Technical & Allied Workers' Union voted unanimously in a secret ballot to accept a 16 ½ % wage increase negotiated by the Union. The Technical and Allied Workers' Union and NAWASA had been in negotiations for a new Collective Agreement for the period 2010 - 2013 and the parties reached a tentative agreement of 16 ½ % increases in pay over the three year period.

The workers have ratified the agreement paving the way for a final settlement.

The parties still have a few outstanding matters to be settled but union sources feel confident that a comprehensive agreement on the new Collective Labour Contract should be reached.

Issued by TAWU:

The TAWU negotiating team is lead by Senator Chester Humphrey and included the Union's Assistant General Secretary Trevor Xavier.
